## SUMMARY

Highly skilled senior frontend engineer with 12+ years of experience in frontend technology (ReactJS, Node, Typescript, JS) and a passion for building innovative solutions. Adept at mentoring junior developers and fostering a collaborative development environment.

## SKILLS

React JS	★★★★★	CSS	★★★★☆	Javascript	★★★★★
HTML	★★★★★	Node	★★★★☆	EXTJS	★★★★★
Redux	★★★★☆	SQL	★★★★☆	Java	★★★☆☆

## EXPERIENCE

### Senior Frontend Engineer — Revcomm Inc., Tokyo Japan

July 2023 - November 2024

- Developed a unique feature capable of processing CSV files with over 30,000 data rows in under 1 second
- Developed significant performance improvement features that played a key role in attracting new merchants within the first few months of joining
- Successfully managed multiple projects, utilizing Jira/Notion boards to prioritize requirements based on complexity and ensure efficient sprint planning in a face-paced environment
- Lead a the team of 4 developers to establish a reliable release schedule planning calendar, creating some transparency and predictability in project delivery

Technologies Used: React, Typescript, React query, Next JS, Python, Tailwind CSS

### Tech Lead — State Street, Bengaluru India

September 2019 - November 2022

- Developed a reusable React framework for UI management & project bootstrapping which was adopted by 6 projects
- Provided technical leadership by guiding multiple teams on React best practices and architectural considerations
- Lead smooth releases of key projects with deep understanding of the entire release process
- Developed RESTful APIs in Java and actively participated in code reviews to ensure code quality, performance, and best practices.

- Mentored junior and senior developers in my team and providing knowledge transfer and team growth

*Technologies Used: React, JS, TS, React query, Azure, Java Rest APIs*

### **Senior Software Engineer — HCL Technologies, Bengaluru India**

*Jan 2017 - Aug 2019*

- Developed features for the admin portal that boosted client team efficiency, resulting in \$1M cost savings during EOY peak season
- Designed and implemented a single-click solution for migrating Excel data into applications, saving internal teams several person hours
- Led a team of 5 engineers and volunteered in other mentorship programs in the company
- Owned the Proof-of-Concept (POC) for upgrading a page from ExtJS to modern frameworks like AngularJS and ReactJS, ensuring compatibility

*Technologies Used: React, EXTJS, HTML5, CSS3, Java Rest APIs*

### **Senior Software Engineer — Walking Tree Consulting, Hyderabad India**

*Jan 2016 - Dec 2016*

- Developed custom components using ExtJS (Sencha Touch) and architected the UI upgrade for a risk management engine
- Maintained high coding standards with my team through code reviews, and built a culture of quality over quantity
- Managed multiple projects effectively using critical thinking and problem-solving skills

*Technologies Used: EXTJS, HTML5, CSS3*

### **Software Engineer — Tata Consultancy Services, Bengaluru India**

*Dec 2012 - Dec 2015*

- Directly interfaced with clients to gather requirements and design user-centric web application
- Proficient in building web pages using frameworks like Spring MVC, with strong understanding of front-end technologies
- Optimized existing codebases with smooth platform upgrades (HTML to ExtJS). Performed integration testing to ensure bug-free releases

*Technologies Used: EXTJS, HTML, CSS, Java, Spring, Spring boot*

## **EDUCATION**

### **Bachelor of Engineering in Information Science and Engineering**

*SJB Institute of Technology - Visvesvaraya Technological University- VTU*

*2008 - 2012*
